

Sussex County Technical School

Daily Bulletin February 12, 2024

- February is CTE month. CTE Fact: CTE associate's degrees can pay \$10,000 more per year than an associate's degree in other fields and can even pay more than bachelor's degrees, while limiting student debt. Please stop by the CTE bulletin board by Junior Cosmo to see what our graduates are doing.
- February is Black History Month. The history department would like to provide you with the following fact: Alexander Miles' elevator design made riding elevators safer. Previously, elevators were operated manually. People had to consciously open and close the doors of the both the elevator and the shaft every time. In 1887, Miles obtained the patent for his invention including a flexible belt attached to the elevator cage allowing the doors to function automatically. He was inducted into the National Inventors Hall of Fame in 2007.
- Attention Mathletes! The math league contest is tomorrow in room 209 during periods 3, 6 or 7. Don't miss out on this epic clash of minds! Hope to see you there, regardless of experience level. Everyone is welcome to join the fun and challenge themselves. (2/13)
- The deadline to order yearbooks has been extended until this Friday. This will be the last extension. Yearbooks must be pre-ordered online to guarantee a book in June. Visit jostensyearbooks.com to order. Seniors wishing to use shares must purchase online first and then bring their receipt to their class advisors for reimbursement. (2/16)
- Attention all students! It's that time of year again. NHS' annual Stuff the Bus Food Drive homeroom competition to benefit the local Sussex County Social Services Food Pantry is on! Bring donated items to your homeroom between January 2nd and March 7th. The homeroom with the most items will receive a bagel breakfast! (3/7)

Thank you and have a nice day!
